Subject: Request for Reconsideration of Technical Bid – Customized AMC/CMC

Respected Sir/Madam,

With due respect, we would like to bring to your kind notice that our technical bid has been rejected due to non-submission of experience certificates related to AMC (Annual Maintenance Contract) work of computers.

In this regard, we humbly submit that although we do not possess direct Government Work Orders in our firm's name, our team has substantial hands-on experience in executing similar AMC work in various Government departments through third-party/vendor associations. Our technical staff has been actively involved in maintenance, troubleshooting, networking support, and IT infrastructure management at multiple government sites.

Due to the nature of third-party engagement, the primary work orders were issued to main contractors; however, the actual execution and service delivery were carried out by our team. This has enabled us to gain strong practical expertise equivalent to the required eligibility standards.

We sincerely request your good office to kindly consider our practical experience, skilled manpower, and technical capability. We are ready to provide supporting documents, references, or demonstration if required.

We assure you of our full commitment to deliver quality service as per tender requirements.

In view of the above, we request you to kindly reconsider our technical bid in the interest of fair competition.

Thanking you.

Yours faithfully,
Vinay Prakash Yadav
